DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 86 is rejected under 35 U.S.C. 102(b) as being anticipated by Sugiyama (JP 2001-305907).

Regarding Claim 86, Sugiyama discloses (Drawing 3; paragraph 28) a process cartridge (31) coupled to an image forming apparatus (Drawing 2), the process cartridge comprising: an image carrier (1) on which a latent image is formed; and a process unit (15) that includes a lubricant applying device (82) arranged on a downstream side of a cleaning device with respect to a direction of rotation (A) of the image carrier (1), and that applies a lubricant to a lubricant applying area on the image carrier (1), wherein a cleaning area cleaned by the cleaning device and the lubricant applying area overlap (see Drawing 3), and wherein the process cartridge (31) integrally supports the image carrier (1) and the process unit (15), and is detachable from the image forming apparatus (paragraph 28).

Allowable Subject Matter

3. Claims 72, 73, 78-85, 87, and 88 are allowed.

Art Unit: 2884

4. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach or render obvious a device having all of the structure and functionality as claimed, specifically the prior art fails to render 'a width of a lubricant to be less than a width of a brush roller and the width of the brush roller to be less than the width of a lubricant applying blade', as claimed, in addition to the remaining claim limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

5. Examiner notes that Applicants reply filed 28 December 2009 does not provide an argument with respect to the rejection of Independent Claim 86. Applicant's amendments to Claim 86 appear to only improve claim form. Accordingly, Examiner has maintained the rejection.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2884

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
